## **Process Innovation in China's Furniture Industry**

Exploring the Potential of the Personnel for Successful  
Implementation of Advanced Manufacturing Technology

**Shaker Verlag  
Aachen 2011**

# TABLE OF CONTENTS

ACKNOWLEDGEMENTS.....	I
ABSTRACT .....	III
ABBREVIATIONS .....	IX
LIST OF TABLES .....	XI
LIST OF FIGURES .....	XIII
LIST OF APPENDICES.....	XVI
1 INTRODUCTION.....	1
1.1 Background .....	1
1.2 Statement of the problem .....	4
1.3 Objectives of the study.....	4
1.4 Structure of the thesis .....	5
2 LITERATURE REVIEW.....	7
2.1 Process innovation in China’s manufacturing industry.....	7
2.2 Advanced manufacturing technology (AMT).....	8
2.2.1 Definition of AMT .....	8
2.2.2 Benefits of AMT implementation .....	10
2.2.3 Process of AMT implementation .....	10
2.3 The human factor and technology adoption.....	12
2.3.1 The sociotechnical system.....	12
2.3.2 Human-Technology-Organization (MTO) model .....	12
2.3.3 Human resource management for AMT implementation .....	15
2.4 Work psychology and AMT implementation.....	15
2.4.1 Work psychology and AMT implementation.....	16
2.4.2 Work motivation .....	17
2.4.3 Job characteristics .....	17
2.4.4 Job satisfaction .....	18
2.5 Job diagnostic survey (JDS).....	18
2.5.1 Introduction of the JDS .....	18
2.5.2 The JDS questionnaire .....	21
2.5.3 Application of the JDS .....	24

<b>3</b>	<b>METHODS .....</b>	<b>25</b>
3.1	Research design.....	25
3.1.1	Process of the study.....	25
3.1.2	Multiple-case study .....	26
3.1.3	Case study protocol.....	26
3.2	Case study firms.....	27
3.2.1	Selection of case study firms.....	27
3.2.2	Descriptions of case study firms .....	28
3.3	Development of interview questions and questionnaires.....	29
3.3.1	Development of the interview questions.....	29
3.3.2	Development of the questionnaire.....	30
3.4	Data collection.....	30
3.4.1	Multiple source of evidence .....	30
3.4.2	Process of data collection.....	31
3.5	Data analysis .....	33
3.5.1	Qualitative data analysis.....	33
3.5.2	Quantitative data analysis.....	33
3.6	Descriptions of respondents .....	34
3.6.1	Respondents in the interviews of AMT implementation survey.....	34
3.6.2	Respondents in the questionnaire survey .....	35
<b>4</b>	<b>RESULTS I – Drivers and Barriers for AMT Implementation in China’s Furniture Industry .....</b>	<b>37</b>
4.1	The implementation of AMT in the Chinese furniture firms .....	37
4.2	Drivers of AMT implementation in China’s furniture industry.....	38
4.3	Barriers to AMT implementation in China’s furniture industry .....	40
<b>5</b>	<b>RESULTS II – Job Dimensions and MPS of Employees in the AMT Implementation .....</b>	<b>45</b>
5.1	Characteristics of employees.....	45
5.1.1	Sex.....	45
5.1.2	Age .....	46
5.1.3	Educational level .....	46
5.1.4	Occupation .....	47
5.1.5	Work experience .....	48
5.2	Descriptive statistics of the job dimensions and the MPS .....	48

5.3	Correlations and reliabilities of the job dimensions and the MPS .....	49
5.4	The job dimensions and the MPS of female and male employees.....	52
5.4.1	Means and SDs of the job dimensions and the MPS of female and male employees.....	52
5.4.2	Main and interaction effects of sex and implementation phase .....	54
5.4.3	Comparative analysis between sex groups and implementation phases .....	55
5.4.4	Summary .....	57
5.5	The job dimensions and the MPS of employees with different age.....	57
5.5.1	Means and SDs of the job dimensions and the MPS of employees in the three age groups .....	58
5.5.2	Main and interaction effects of age and implementation phase .....	60
5.5.3	Comparative analysis between age groups and implementation phases .....	61
5.5.4	Summary .....	64
5.6	The job dimensions and the MPS of employees with different educational levels..	65
5.6.1	Means and SDs of the job dimensions and the MPS of employees in the three educational groups.....	65
5.6.2	Main and interaction effects of educational level and implementation phase .	67
5.6.3	Comparative analysis between educational groups and implementation phases .....	68
5.6.4	Summary .....	74
5.7	The job dimensions and the MPS of employees with different occupations .....	75
5.7.1	Means and SDs of the job dimensions and the MPS of employees in the tree occupational groups.....	75
5.7.2	Main and interaction Effects of occupation and implementation phase .....	77
5.7.3	Comparative analysis between occupational groups and implementation phases .....	78
5.7.4	Summary .....	90
5.8	The job dimensions and the MPS of employees with different work experience....	90
5.8.1	Means and SDs of the job dimensions and the MPS of employees with different work experience.....	91
5.8.2	Main and interaction effects of work experience and implementation phase ..	93
5.8.3	Comparative analysis among work experience groups and implementation phases .....	94
5.8.4	Summary .....	99

<b>6</b>	<b>DISCUSSION .....</b>	<b>101</b>
6.1	Process innovation in China's furniture industry .....	101
6.1.1	The implementation of CIM in China's furniture industry .....	101
6.1.2	The introduction of new production concepts in China's furniture industry ..	102
6.1.3	Human issues in process innovation in China's furniture industry.....	104
6.2	Developing the potential of the personnel for successful AMT implementation in China's furniture industry .....	106
6.2.1	Gender issues in process innovation in China's furniture industry.....	106
6.2.2	Improving work satisfaction of younger employees .....	107
6.2.3	Promoting higher education and training as a critical issue.....	108
6.2.4	Eliminating psychological barriers of blue-collar workers and managers.....	110
6.2.5	Work experience as a positive factor .....	112
<b>7</b>	<b>CONCLUSIONS .....</b>	<b>115</b>
7.1	General conclusions .....	117
7.2	Innovations in the study .....	117
7.3	Future research areas.....	118
	<b>SUMMARY.....</b>	<b>119</b>
	<b>ZUSAMMENFASSUNG .....</b>	<b>123</b>
	<b>REFERENCES .....</b>	<b>125</b>
	<b>APPENDICES .....</b>	<b>135</b>
