PREFACE

Who are we? xvii
Why did we team up to write this book? xviii
What's the book about? xix
Who provided invaluable assistance on this project? xx

PART I HOW ARE WE TAXED?

1 The View from 30,000 Feet 3

Why is everyone always so worked up about taxation? 3
What is a tax? 5
What are the major kinds of taxes? 6
How are taxes like ducks? 7
Are there "hidden" taxes? 9
Are there ways to raise revenue other than taxes? 11
Why not just borrow the money instead of raising taxes? 12
How can taxes be like regulations? 13
How have taxes changed over time? 14
How do state and local taxes vary? 14
How does the composition of tax vary across federal, state, and local governments? 14
How do tax burdens vary around the world? 15
Federal taxes in the United States have been at about 18 percent of GDP for 50 years. Does that mean that this is the natural rate of taxation? 17
Why is the long-term fiscal outlook so dire? 17
Can taxes be discussed without getting into government spending? 18

2 Personal Income Taxes 21

What's the difference between personal taxes and business taxes? 21
Who really bears the burden of tax? 22
Are there cases in practice where it does matter who writes the check? 24
Can taxes affect asset prices? 25
What is the personal income tax? 26
Isn't the income tax a fraud? 26
What are exclusions, deductions, exemptions, and credits? 27
Why are there itemized deductions? Isn't it unfair that most people don't benefit from them? 30
At what income level do people start owing income tax? 31
Is it true that half of households owe no income taxes? 32
Is this bad for democracy? 33
Do we tax capital income the same as labor income? 34
What is economic income? 35
Why do economists think my home earns me rent? 35
Why don't we tax economic income? 36
How do we tax capital gains and dividends? 38
What are the arguments for and against lower capital gains tax rates? 39
What is the “Angel of Death” loophole? 40
If we want to favor capital gains and dividends, does it make sense to do it via lower rates? 41
What is the AMT? 42
Where the heck did this turkey come from and why is it so hard to get rid of? 43
What is the AMT patch? 44
What is the “Buffett Rule”? 44
What are hidden tax brackets? 46
Does Uncle Sam really want you to live in sin? 46
How does inflation affect the income tax? 50
What are payroll taxes and how are they different from income taxes? 52
Aren’t other taxes also dedicated to Medicare and Social Security? 53
Is it true that most taxpayers owe more payroll than income tax? 54

3 Business Income Taxes 56

How do we tax corporations’ income? 56
Why do economists say that we “double tax” corporation income? 57
What are the others ways business income is taxed? 58
Why tax corporations? 60
Which people bear the burden of the corporate income tax? 63
What are the impacts of double-taxing corporate income? 63
What would happen if we just eliminated the corporate income tax? 64
How can some companies get away with paying no income tax despite billions in profits? 65
Why is it troublesome that some companies view their tax departments as profit centers? 67
Income earned by corporations is double-taxed, and tax avoidance opportunities abound. Make up your mind—Is corporate income taxed too much, or too little? 67
4 Taxing Spending

What is a consumption tax? 90
Why tax consumption rather than income? 90
A consumption tax sounds great: What’s the catch? 92
What is a retail sales tax? 93
What is a use tax? 94
What is a luxury tax? 95
What is an excise tax? 96
What is a sin tax? 96
What is a Pigouvian tax? 97
What is a VAT? 98
The credit-invoice VAT sounds really complicated. Why do it that way?  
Are small businesses subject to the VAT?  
Why doesn’t the United States have a VAT?  
How much money would a VAT raise?  
What is the typical VAT rate in other countries?  
How would a federal VAT interact with state and local sales taxes?  
Does a VAT promote exports?  
What is the flat tax?  
 Wouldn’t a flat tax be super simple and fair?  
There are flat taxes all over Eastern Europe. Are they the same as the flat tax advocated for the United States?  
What is the X Tax?  
What is a consumed income tax?  
Are tax breaks for saving and retirement indirect steps toward a consumption tax?  
Do these tax breaks actually encourage saving?  
If the economy runs on consumption, why would we want to encourage saving?  
What’s the difference between Roth and traditional IRAs?  
Do consumption taxes disproportionately burden the old?  

5 Other Kinds of Taxes

What is the estate tax?  
How is estate tax liability calculated?  
Why tax estates when the assets that went into them were already subject to plenty of tax?  
What are the estate tax’s effects on work and saving?  
How does the estate tax affect small businesses and family farms?  
What is the difference between an estate tax and an inheritance tax?
What is a financial transaction tax? 124
What is the property tax? 125
What is a lump-sum tax? 128
Do economists have other goofy ideas about ideal tax systems? 129
Do these ideas explain why people don't like economists? 130

PART II  THE COSTS AND BENEFITS OF TAXATION

6 Taxes and the Economy 133

How do taxes affect the economy? 133
Why do economists think that raising funds costs much more than the tax sticker price? 134
Do some taxes help the economy? 134
What is the Laffer Curve? 135
Which is a better economic stimulus, cutting taxes or spending more? 135
What kinds of taxes provide the most stimulus? 137
What are built-in stabilizers? 138
Why do smart, serious people disagree about optimal tax policy? 139
How do taxes affect prosperity and growth? 141
How do taxes affect working and saving? 143
How do taxes affect entrepreneurship? 144
How do taxes affect research and innovation? 145
What is “trickle-down” economics? 146
Why not run deficits forever? 146
If people care about their children, won't they just save more to make up for any deficits? That is, do deficits matter at all? 147

7 The Hidden Welfare State 150

Are a trillion dollars in middle-class entitlement programs really hidden in the tax code? 150
What exactly is a tax expenditure? 151
Why do we call tax expenditures entitlement programs? They're tax cuts. 153
Who benefits from tax expenditures? 154
Why has the use of tax expenditures been growing in recent years? 155
How should policymakers decide whether to run a subsidy through the tax system? 156
How should tax expenditures be designed? 157
Are all tax expenditures run through the income tax? 159
Is the whole concept of tax expenditures based on the fallacious assumption that government owns all your money? 160

8 The Burden of Taxation 163
What makes a tax system fair? 163
What is the benefit principle? 164
Do special fairness concerns come into play when tax laws change? 165
How is the tax burden distributed? 165
What is the burden of deficits? 168
Is progressive taxation class warfare? 169

9 Tax Administration and Enforcement 171
How much does it cost to run the U.S. tax system? 171
How does tax remittance and collection work? 172
Who gets audited, and why? What's the DIF? 173
What is information reporting? 175
What is tax withholding? 177
Why do people cheat on their taxes? Why do they comply? 178
How much cheating is there? 180
How much more tax could the IRS collect with better enforcement? 183
Why not audit everyone? 183
Are refundable tax credits especially prone to tax evasion? 185
Do most people get tax refunds? Should I? 185
How many people use tax preparers? Do they help or hinder compliance? 186
How should tax complexity be measured? 188
Do fewer tax brackets promote simplicity? 189
Why is there a trade-off between simplicity and other goals such as fairness? 190
Should states be able to tax Internet and mail-order sales from other states? 190
How fast are we moving toward e-filing? 191
If almost everyone uses tax software or paid preparers, should we stop worrying about complexity? Should we start worrying about democracy? 192
Could most taxpayers be spared any filing requirement (as in the United Kingdom)? 193
Could the IRS fill out our tax returns for us? 194
Would simplifying tax compliance be unfair to H&R Block and Intuit? 195
What is a data retrieval platform? 196

PART III  A TOUR OF THE SAUSAGE FACTORY

10  Misperceptions and Reality in the Policy Process 199

What does the public know about taxes? 199
What does the public think about taxes? 200
How are new taxes enacted? 202
What are regulations and why are they important? 203
How does the tax sausage get made? (House and Senate rules) 204
Who estimates the revenue impact of tax changes? 206
How do they do it? Do they ignore behavioral responses to taxation? 207
What is dynamic scoring? 209
Must taxes be raised? 212
Can we solve the problem by raising tax rates only on those with high incomes? 213

11 Snake Oil 215
The FairTax sounds, well, fair. Is it? 215
Wouldn’t a flat tax be super-simple and efficient? 217
How about offering a new tax system on an elective basis? 217
What is the “starve-the-beast” theory? 218
Does the taxpayer protection pledge protect taxpayers? 220
What is the “two Santa Claus” theory? 220

12 Tax Reform 223
Tax reformers talk about a broad base and low rates. What does that mean? 223
Is the broadest base always the best base? 223
Does the framing of taxes matter? 224
What is a revenue-neutral tax change? 224
Should tax reform and deficit reduction be separated? 225
Are there some sensible tax reform ideas? 225
What have we learned? 227
