| 1. Introduction | 1 |
| Aims | 1 |
| Introduction | 1 |
| The purpose of this book | 2 |
| What are events and what is the environment? | 2 |
| The changing relationship of events and the environment over time | 4 |
| Positive and negative environmental impacts | 5 |
| The relationship between environmental and other impacts | 6 |
| The changing scale and nature of environmental impacts | 6 |
| Events, systems and models of the environment | 6 |
| Event industry interactions with the environment | 8 |
| Feedback from the environment on its misuse | 9 |
| Structure of the book | 9 |
| Conclusion | 11 |
| | |
| 2. Environmental resources for the event industry | 12 |
| Aims | 12 |
| Introduction | 12 |
| The natural environment as a venue for events | 13 |
| The built environment as a venue for events | 14 |
| Environmental constraints on events | 14 |
| Case study: cricket on shingle banks in the Solent | 15 |
| How the weather disrupts events | 20 |
| Case study: the Vancouver 2010 Winter Olympics | 22 |
| Case study: the Indian Premier League tournament in South Africa | 23 |
| Managing your own event | 24 |
| The supply chain | 26 |
| A PESTE approach to environmental audit | 28 |

| | |
|--|-----------|
| Conclusion | 29 |
| Further reading | 29 |
| 3. Venues and the environment | 30 |
| Aims | 30 |
| Introduction | 30 |
| A typology of venues | 31 |
| Venue location factors | 35 |
| Case study: Southampton Football Club and Hampshire County Cricket Club | 36 |
| Case study: the 2012 Olympics in London's East End | 41 |
| Improving environmental design | 47 |
| Case study: Confederation of Indian Industry Sohrabji Godrej Green Business Centre Building, India | 47 |
| Conclusion | 49 |
| Further reading | 49 |
| 4. Environmental impacts at the micro scale | 50 |
| Aims | 50 |
| Introduction | 50 |
| Some intrinsic problems in discussing event impacts | 51 |
| Positive impacts | 53 |
| Case study: Liverpool Garden Festival | 53 |
| Negative impacts | 55 |
| Case study: trampling on Dartmoor | 60 |
| Case study: Robbie Williams concert at Knebworth House, 2003 | 65 |
| Case study: air quality at the Beijing 2008 Olympics | 67 |
| Mini case study: a cautionary tale from the Reading Festival | 70 |
| Assessing the overall environmental impact of events: approaches from Australia | 71 |
| Conclusion | 73 |
| Further reading | 73 |
| 5. Environmental impacts at the macro scale | 74 |
| Aims | 74 |
| Introduction | 74 |
| Global pollutants | 75 |
| Rainfall acidification and its impacts on forests | 75 |
| The depletion of the ozone layer | 76 |
| Greenhouse gases and climate change | 79 |
| Mitigating the effects of climate change | 86 |
| Adapting to climate change | 87 |
| Case study: Hampshire County Council | 87 |
| The contribution of the event industry to macro-scale pollution | 90 |
| Case study: carbon footprint of the London 2012 Olympics | 92 |

| | |
|---|------------|
| Case study: the Sydney 2000 Olympics | 94 |
| Conclusion | 95 |
| Further reading | 96 |
| 6. Urban regeneration | 97 |
| Aims | 97 |
| Introduction | 97 |
| How events create urban regeneration | 99 |
| Evaluation of urban regeneration | 102 |
| Case study: the Athens 2004 Olympics | 105 |
| Case study: the Barcelona 2000 Olympics | 108 |
| Conclusion | 111 |
| Further reading | 112 |
| 7. Environmental legislation and standards | 113 |
| Aims | 113 |
| Introduction | 113 |
| The legislative framework | 114 |
| Case study: events in Antarctica | 115 |
| Case study: special events in the national historic sites of Canada in Cape Breton | 122 |
| Standards | 124 |
| Case study: implementing BS 8901 – Manchester International Festival | 132 |
| Conclusion | 133 |
| Further reading | 133 |
| 8. Sustainability: its nature and development as a concept and emergence in event management | 134 |
| Aims | 134 |
| Sustainability – a contested idea | 134 |
| The social, cultural and political context of sustainability | 135 |
| Case study: the United Nations Conference on Environment and Development in Rio, 1992 | 136 |
| Protests against the event industry | 138 |
| Event academe and the event industry | 138 |
| Developments in the industry | 141 |
| Sustainable event management protocols, principles and policies: some definitions | 144 |
| Case study: BS 8901 – a sustainable event management system | 146 |
| Conclusion | 148 |
| Further reading | 148 |
| 9. Sustainable event management practices | 149 |
| Aims | 149 |
| Introduction | 149 |

| | |
|---|------------|
| Lists and flyers | 149 |
| Mini-guides and brochures | 150 |
| Event-specific guidelines | 158 |
| Case study: the World Summit on Sustainable Development in Johannesburg, 2002 | 158 |
| Case study: 9th International Conference on Southern Hemisphere Meteorology and Oceanography held in Melbourne, 2009 | 160 |
| Books | 160 |
| Case study: Climate Change: Finding Solutions Conference held at the University of Winchester, 2008 | 162 |
| Conclusion | 163 |
| Further reading | 163 |
| 10. Monitoring the environmental performance of event management | 164 |
| Aims | 164 |
| Introduction | 164 |
| History of environmental performance monitoring | 165 |
| ISO 14031 Environmental Performance Evaluation | 166 |
| United Nations: the UN Conference on Trade and Development and Environmental Accounting | 169 |
| European Union directives | 171 |
| Defra: <i>Environmental KPIs: Reporting Guidelines for UK Business</i> | 173 |
| Global Reporting Initiative (GRI) | 175 |
| <i>Event Organizers Sector Supplement (EOSS)</i> | 176 |
| The DIT-ACHIEV Model | 180 |
| Other approaches | 181 |
| Conclusion | 184 |
| Further reading | 184 |
| 11. Future issues | 185 |
| Aims | 185 |
| Introduction | 185 |
| Environmental scepticism | 186 |
| Global recession | 186 |
| Education | 187 |
| The intrinsic nature of events | 188 |
| The political process | 189 |
| Sustainable management incentives | 190 |
| Conclusion | 190 |
| Further reading | 191 |
| <i>Bibliography</i> | 192 |
| <i>Index</i> | 202 |
