Annex 2B  Data Sources and Descriptions Used for Model of Investment Requirements  24  
Annex 2C  Data Imputations  25  
Notes  25  
References  27  

Chapter 3  Short-Run Employment Effects of Infrastructure Investment  29  
Techniques for Estimating the Cost of a Job and the Employment Generated by Investment in Infrastructure  29  
Hybrid Approaches to Estimating the Short-Term Employment Effects of Infrastructure Investment  32  
Estimating the Cost of Creating Jobs in Oil Importing MENA Countries  35  
Alternative Approaches to Estimating the Short-Term Employment Effects of Infrastructure Spending  45  
Implications of Using Labor-Intensive Technologies in the Maintenance of Unpaved Roads  49  
Annex 3A  Constructing Hybrid Estimates of Employment Linked to Investment  51  
Annex 3B  Estimated Shares of Inputs in Different Types of Infrastructure  55  
Annex 3C  Potential for Job Creation in the Three Groups of MENA Countries  55  
Notes  57  
References  58  

Chapter 4  Long-Term Employment Effects through the Growth Channel  61  
Output Elasticity with Respect to Infrastructure  62  
Employment Elasticity with Respect to Economic Output  63  
Employment Elasticity with Respect to Infrastructure  64  
Long-Run Employment Response to Infrastructure Investment  66
Chapter 5  Policy Implications
Subsidized Employment Programs and Job Creation
Types of Training for Lasting Job Creation
Minimizing the Cost of Job Creation—Targeting
Is Subsidizing Job Creation a Sustainable Policy?
What Are the Net Fiscal Costs and Benefits of Job Creation Programs?
Concluding Remarks
Notes 81
References 82

Boxes
3.1 Pros and Cons of Input-Output Table Use for Generating Employment Estimates 33
3A.1 Calculation of the Cost of a Type II Job Using a Hybrid Approach 54

Figures
O.1 Infrastructure Needs and Financing xxii
O.2 Cost of a Direct Job in Roads and Bridge Construction Relative to Other Sectors in 2009 xxiii
O.3 Shares of Unemployed by Education Level in Selected MENA Economies xxvi
1.1 Public Gross Fixed Capital Formation 3
1.2 Sectors’ Contribution to Annual Employment Growth in the 2000s 4
1.3 Fiscal Space Indicators 5
2.1 Labor Force Levels in MENA, 2009 11
2.2 Composition of Infrastructure Expenditure Needs by Group of Countries 17
2.3 Shares of Infrastructure and Construction Jobs in Total Employment in MENA 22
3.1 Hourly Wages as a Function of the Share of Labor Inputs in Total Costs 47
