Foreword.....	iii
Preface	v
List of team members	vii
List of contributors	viii
List of key abbreviations.....	xxi
Signs and measures.....	xxiii
Currency conversion table	xxiv
 EXECUTIVE SUMMARY	 xxv
 INTRODUCTION	 1
I.1 Physical context	1
I.2 Natural resources.....	1
I.3 Demographic and social context	2
I.4 Economic context.....	3
I.5 Institutions.....	4
 PART I ENVIRONMENTAL POLICY AND MANAGEMENT	
 Chapter 1 Decision-making for environmental protection	
1.1 Introduction.....	9
1.2 Institutional framework.....	9
1.3 Strategies, policies and programmes.....	14
1.4 Legal framework	16
1.5 Conclusions and recommendations.....	19
 Chapter 2 Regulatory instruments for environmental protection	
2.1 Introduction	21
2.2 Legislative framework for environmental inspection and enforcement.....	21
2.3 Environmental enforcement authorities	22
2.4 Mechanisms to ensure compliance and enforcement.....	24
2.5 Compliance assurance	24
2.6 Enforcement tools	25
2.7 Fines, penalties and non-compliance fees	26
2.8 Assessment tools	26
2.9 Environmental licensing.....	29
2.10 Promotion of environmental management systems in enterprises	30
2.11 Conclusions and recommendations.....	30
 Chapter 3 Economic instruments and financing of environmental protection	
3.1 Introduction	33
3.2 Institutional, legal and policy framework	33
3.3 Use of economic instruments for environmental protection	35
3.4 Financing of environmental expenditures	41
3.5 Foreign direct investment.....	49
3.6 Conclusions and recommendations.....	50

Chapter 4 International cooperation

4.1	General framework for international cooperation	53
4.2	Institutional and policy framework	53
4.3	Implementation of multilateral environmental agreements and commitments	54
4.4	Regional cooperation	57
4.5	Bilateral cooperation	61
4.6	Millennium development goals and sustainable development	61
4.7	Special focus: water issues	61
4.8	Conclusions and recommendations	63

Chapter 5 Environmental monitoring, information, public participation and education

5.1	Introduction	65
5.2	Institutional, policy and legal framework	65
5.3	Environmental monitoring	67
5.4	Information management and reporting	71
5.5	Public participation	73
5.6	Environmental education and education for sustainable development	74
5.7	Conclusions and recommendations	75

PART II MANAGEMENT OF NATURAL RESOURCES AND POLLUTION**Chapter 6 Air quality management**

6.1	Introduction	81
6.2	Institutional, policy and legal framework	81
6.3	Air quality standards	82
6.4	Air quality monitoring	82
6.5	Air emissions and pollution	83
6.6	Permit issuing and enforcement	86
6.7	International agreements	86
6.8	Air management and climate	87
6.9	Conclusions and recommendations	87

Chapter 7 Water management and protection of the Caspian Sea environment

7.1	Introduction	89
7.2	Institutional, policy and legal framework for water management	90
7.3	Water resources and their use	92
7.4	Water quality and monitoring	94
7.5	Wastewater management	95
7.6	Protection of the Caspian Sea environment	96
7.7	Conclusions and recommendations	98

Chapter 8 Land management

8.1	Introduction	101
8.2	Institutional policy and legal framework	101
8.3	Land use	103
8.4	Land degradation	105
8.5	Agrarian reform	109
8.6	Conclusions and recommendations	112

Chapter 9 Waste management

9.1	Introduction	115
9.2	Institutional, policy and legal framework	115
9.3	Current situation	118
9.4	Conclusions and recommendations	123

Chapter 10 Biodiversity and protected areas

10.1	Description of general situation concerning biodiversity	125
10.2	Institutional framework	125
10.3	Policy framework and priorities concerning biodiversity and protected areas	129
10.4	Legal framework	131
10.5	Current state of and trends in biodiversity	133
10.6	Pressures and threats to biodiversity	134
10.7	Protected areas system	135
10.8	Ex situ conservation	138
10.9	Biodiversity of the Caspian Sea, its protection and sustainable use	138
10.10	Information systems concerning biodiversity	139
10.11	Conclusions and recommendations	142

Chapter 11 Forestry and forest management

11.1	Introduction	145
11.2	Institutional, policy and legal framework	145
11.3	Role and importance of forests and other wooded land	148
11.4	Forest status	149
11.5	Forest characteristics	149
11.6	Forest and other wooded land management	153
11.7	International cooperation	155
11.8	Conclusions and recommendations	156

PART III SECTORAL INTEGRATION**Chapter 12 Climate change**

12.1	Introduction	161
12.2	Institutional framework	161
12.3	Policies and strategies	162
12.4	Legal framework	164
12.5	Current situation	165
12.6	International cooperation	171
12.7	Conclusions and recommendations	172

Chapter 13 Energy and environment

13.1	Introduction	175
13.2	Institutional, policy and legal framework	176
13.3	Review of energy sector	178
13.4	Impact of energy sector on environment	181
13.5	Energy efficiency and renewable energy resources	184
13.6	Conclusions and recommendations	185
