

Strategic Foresight for Navigating Transitions
- Methodological Refinements and Cases -

**Der Rechts- und Wirtschaftswissenschaftlichen Fakultät
am Fachbereich Wirtschaftswissenschaften**

**der Friedrich-Alexander-Universität
Erlangen-Nürnberg**

zur

Erlangung des Doktorgrades Dr. rer. pol.

vorgelegt von

Herrn Alexander Spickermann

aus Brüggen

Table of Contents

Table of Contents i

List of Figures..... iv

List of Tables v

List of Appendices..... vi

List of Abbreviations vii

I Introduction 1

1 Strategic foresight for navigating transitions – Thesis motivation 1

2 Methodological refinements – An overview of essays 4

3 Transition cases – An overview of essays..... 6

4 Overview of thesis structure..... 10

II Surface- and Deep-Level Diversity in Panel Selection – Exploring Diversity Effects on Response Behaviors in Foresight..... 11

1 Introduction 12

2 Theoretical background and research gap..... 14

2.1 Delphi method and the importance of expertise..... 14

2.2 Multiple dimensions of diversity and their consideration in Policy Delphi studies 16

2.3 Extreme response style 21

2.4 Research hypotheses..... 22

3 Methods..... 26

3.1 Study design and survey procedure 26

3.2 Measures..... 29

4 Results 33

4.1 Diversity and response behavior in foresight 33

4.2 Impact of diversity on probability response behavior 35

5 Discussion 39

6 Conclusion..... 44

III The Effects of Abstract Language and Amount of Information on Response Behavior in Prospective Surveys..... 45

1 Introduction 46

2 New linguistic perspectives on prospective survey questions 49

2.1 A review of established linguistic design features influencing survey results..... 49

2.2 The distinctiveness of questions about a future state 50

3 Conceptual framework and hypotheses development..... 51

3.1 The abstraction level of verbs and adjectives..... 52

3.2	Specifications and modifiers.....	55
3.3	The amount of information	57
4	Methodology.....	59
4.1	The Delphi technique for prospective surveys	59
4.2	Sampling and survey response.....	59
4.3	Measures	60
4.4	Econometric approach to linguistic analysis	63
5	Results	64
5.1	Descriptive results.....	64
5.2	Influence of abstract language and the amount of information on response behavior	64
6	Discussion and implications	67
7	Limitations and future research	70
IV	Heading Towards a Multimodal City of the Future? Multi-Stakeholder Scenarios for Urban Mobility	72
1	Introduction	73
2	The need for purposive urban mobility system transition	76
2.1	Review of future-oriented urban mobility research.....	76
2.2	Socio-technical transition, the MLP, and the conceptualization towards a multimodal system through SIM	81
3	Research approach and methodology	82
3.1	Strategic issue orientation for urban mobility system transition	83
3.2	Strategic issue assessment through parallel Delphi studies	86
3.3	Purposive transition strategies: a participatory multi-stakeholder workshop approach	90
4	Multi-stakeholder perspectives on the future of city mobility	91
4.1	Aggregated results for scenario development.....	91
4.2	A desirable vision of urban mobility	94
4.3	Perspectives on the probable future of urban mobility	95
4.4	Stakeholders' disputes over the future of urban mobility	101
5	Purposive transition strategies: towards a multimodal city design.....	103
5.1	General stakeholders – strategic agenda	103
5.2	Industry – strategy agenda	104
5.3	Public authorities – strategy agenda	106
5.4	Customers – strategy agenda	108
6	Conclusion	108
V	Integration of Strategic Foresight and Multi-level Perspective to Explore Sustainability Transitions in the German Energy System.....	112
1	Introduction	113
2	Theoretical perspective	116

2.1 Intellectual contours of transitions	116
2.2 Sustainability transition in the German energy system	118
2.3 A strategic foresight perspective	121
3 Conceptual framework and research design.....	122
3.1 The diagnostic and contextualizing phase	124
3.2 The interpretive and creative phase	124
3.3 The strategic and learning phase	128
4 Research results	129
4.1 Aggregated results for scenario development	129
4.2 Portfolio-based scenario development through cluster analysis	130
4.3 In-depth analysis of scenario clusters.....	131
4.4 Ramifications for actor strategies and planned transition strategies	139
5 Conclusion.....	141
VI Future of Emerging Markets Logistics – Fuzzy Clustering Scenarios Grounded on Institutional and Factor-Market Rivalry Perspective.....	144
1 Introduction	145
2 Literature review and conceptual framework.....	147
2.1 The importance of logistics for emerging markets.....	147
2.2 Theoretical lenses on emerging markets' logistics.....	148
2.3 The foresight perspective in emerging markets.....	151
3 Methodology and research design.....	155
3.1 Delphi study design	155
3.2 Development of future projections.....	156
3.3 Selection of panelists.....	158
3.4 Development of fuzzy clustering-based scenarios	160
4 Research results and discussion	161
4.1 Descriptive Delphi results	161
4.2 Fuzzy clustering and scenario development.....	163
4.3 Cluster 1: Logistics as key enabler of future growth.....	166
4.4 Cluster 2: Supportive and inhibiting trends for logistics growth	169
4.5 Cluster 3: Logistics industries will need strong improvements	171
5 Conclusion and implications	172
VII Conclusion	175
VIIIReferences	179
IX Appendices	212
