

New Nuclear Power Industry Procurement Markets: International Experiences

Edited by
Ilchong Nam and Geoffrey Rothwell

Contents

Preface	
Summary	1
CHAPTER 1	
Introduction	5
CHAPTER 2	
Procurement Market for the Nuclear Power Industry of Korea	14
1. Introduction	14
2. An Overview of the Procurement Market for Nuclear Power Plants in Korea	18
3. Relevant Laws and Regulations	27
4. Evidence of Sub-optimal Performance of the Nuclear Power Procurement Market	35
5. Measures Taken by the Government	40
6. Chapter Summary	43
CHAPTER 3	
Factors That Caused the Inefficiency in the Procurement Market for the Nuclear Power Industry of Korea	46
1. Introduction	46
2. Case of the JS Cable	48
3. A Game-theoretic Analysis of the Control Cable Case	53
4. Fundamental Problems and Alternative Solutions	70
5. Measures for a More Fundamental Reform	77

CHAPTER 4

Nuclear Procurement in the French Context	82
1. Introduction	82
2. The Nuclear Landscape in France: History, Evolution, and Actors	85
3. Legal Basis for Transparency and Prevention of Corruption	96
4. Procurement Policy in France's Three Nuclear Operators	108
5. Selected Technical Characteristics of Nuclear Procurement Process	120
6. Safety of Nuclear Procurement: French Specifics and Comparative Strengths and Weaknesses	129
7. Conclusions and Future Research	135

CHAPTER 5

Nuclear Energy in the UK:	
Safety Culture and Industrial Organisation	142
1. Introduction	142
2. UK Historical Context	143
3. UK Nuclear Renaissance	147
4. Development of the Generic Design Assessment Process	151
5. Development of the UK Nuclear Regulatory Arrangements	153
6. The UK Liability Regime	158
7. UK Regulators	161
8. Engineering Codes and Standards	162
9. UK Case Studies – Learning From Experience	163
10. The European Dimension	172
11. Bribery and Whistle Blowing	174
12. Nuclear Professionalism in the UK	176
13. Closing Observations and Policy Recommendations	178
