Introduction: rethinking the crises–complexity nexus 1
Matthew Hollow

PART I  COMPLEXITY AND CRISES IN FINANCIAL SYSTEMS

1. Financial innovation and the consequences of complexity: insights from major US banking crises 13
   Robert F. Bruner, Sean D. Carr and Asif Mehedi

2. Entrepreneurial failure and economic crisis: a historical perspective 36
   Mark Casson

3. Nature or nurture: the British financial system since 1688 60
   Ranald Michie

4. The British banking population: 1790–1982 85
   Ian Bond

PART II  LEGISLATIVE AND STRUCTURAL CHANGES IN THE FINANCIAL SECTOR

5. From tort to finance: Delaware’s sedative duty to monitor 121
   Dalia Tsuk Mitchell

6. Demutualization and risk: the rise and fall of the British building society 149
   Andrew Campbell and Judith M. Dahlgreen

7. Directors in the dock: joint-stock banks and the criminal law in nineteenth-century Britain 164
   James Taylor
8. UK corporate law and corporate governance before 1914: a re-interpretation
   James Foreman-Peck and Leslie Hannah  
   183
9. Effective risk management and improved corporate governance
   Roman Tornasic and Folarin Akinbami  
   214

PART III MANAGING AND REGULATING COMPLEX FINANCIAL SYSTEMS

10. The historical development of the US government’s responses to economic and financial crises
    Peter H. Bent  
    243
11. From the mid nineteenth-century bank failures in the UK to the twenty-first-century Financial Policy Committee: changing views of responsibility for systemic stability
    T.T. Arvind, Joanna Gray and Sarah Wilson  
    261
12. Financial reporting, banking and financial crisis: past, present and future
    Mark Billings  
    287
13. Financial crises and disaster management
    John Singleton  
    306
