Abstract25

I. Introduction.....29

 I-1 Background and motivation for the study.....29

 I-2 Innovative approaches and new roles: business in alteration.....33

 I-3 Research question and hypothesis40

 I-4 Definitions and conceptual framework.....41

 I-5 Design of the study and data sources49

 I-6 Ethiopia as study country51

 I-7 Outline of the study56

II. Identifying marginality hotspots in Ethiopia:
 locating future markets?.....59

 II-1 Marginality – a short introduction of the concept60

 II-2 Where are the marginalized poor in Ethiopia?64

 II-2.1 Marginality hotspot mapping – method and data.....64

II-2.2	The dimensions of marginality and their proxies.....	66
II-2.3	Sensitivity analysis and validation of the marginality hotspot map	76
II-2.4	Limitations of the mapping approach and implications for further analyses.....	81
II-3	How many people are marginalized in Ethiopia?	82
II-4	Marginality hotspots and their concurrence with other socio-economic and agro-ecologic factors	87
II-4.1	Marginality hotspots and agro-ecological zones	87
II-4.2	Ethnic diversity, ethnic dominance and marginality	89
II-5	Can business reach out to marginalized people?	98
II-6	Conclusion	104
III.	The demand side of BoP markets: the marginalized poor as consumers and producers	107
III-1	Introduction: the people at the bottom of the economic pyramid	107
III-1.1	Who is the BoP and why it is important to know it	109
III-1.2	Need, latent need and demand.....	110
III-2	Who are the BoP consumers and on what do they spend?	111
III-2.1	Definitions of BoP consumers.....	111
III-2.2	On what do BoP consumers spend?	116
III-2.3	Factors influencing the purchasing behavior of the BoP – what do we know?	118
III-2.4	Preliminary conclusion: what do we know about BoP consumers?.....	120
III-3	Who is the BoP in Ethiopia? Needs and demand of the marginalized poor	121
III-3.1	Introduction	122
III-3.2	Survey methodology.....	123
III-4	Empirical findings about the people at the bottom of the economic pyramid in Ethiopia.....	126
III-4.1	Community characteristics.....	126

III-4.2	Basic characteristics of the respondents	127
III-4.3	Expenditures and savings of the marginalized poor	130
III-4.4	Needs and demand of the marginalized poor.....	134
III-4.5	Do the marginalized poor have access to improved agricultural inputs?	140
III-4.6	Do the marginalized poor participate on the market as sellers?	142
III-5	Conclusion: lessons learnt about the needs of the marginalized poor and potential untapped markets.....	147
IV.	The supply side of BoP markets and prospects for the private sector to reduce poverty in rural Ethiopia	151
IV-1	Institutions and transaction costs – defining the concepts	151
IV-2	Transaction costs in the agricultural sector of poor countries – what do we know so far?.....	153
IV-2.1	Agriculture and the private sector in Ethiopia: a short introduction of the historical and institutional background.....	155
IV-2.2	National policies and regulations governing agricultural input markets	157
IV-2.3	Implications for the private sector	162
IV-3	Are there firms targeting the poor? Agricultural input provision in Ethiopia	166
IV-3.1	Seeds of major crops.....	167
IV-3.2	Why is there not more investment in seed production?	169
IV-3.3	The direct seed marketing pilots	172
IV-3.4	Institutions preventing the private sector from increasing seed production and targeting the marginalized poor.....	176
IV-3.5	What is the nature of transaction costs arising in the Ethiopian seed system?	177
IV-3.6	The fertilizer system	182
IV-3.7	Problems in the fertilizer system.....	182

IV-3.8	The private sector and the fertilizer market	185
IV-3.9	Institutional analysis: transaction costs along the fertilizer value chain	187
IV-3.10	Provision of other seeds and agro-chemicals.....	189
IV-4	Conclusion: institutions and the private sector on agricultural input markets	192
V.	Conclusion	197
