ESCWA Water Development Report 6

The water, energy and food security nexus
in the Arab region

CONTENTS

Abbreviations	vi
Executive Summary	ix
Introduction	1
 I. Framing the Water-Energy-Food Security Nexus	 5
A. <i>Understanding the nexus</i>	5
B. <i>Elaborating a water-energy-food security nexus within the context of sustainable development</i>	15
C. <i>A water-energy-food security nexus for the Arab region</i>	21
 II. The Nexus from a Shared-Basin Perspective	 31
A. <i>Overview</i>	31
B. <i>Euphrates river basin</i>	34
C. <i>Nile river basin</i>	39
D. <i>The Saq-Ram Aquifer System (West)</i>	43
E. <i>North-West Sahara Aquifer System</i>	48
 III. Energy and Water Interdependencies for Improved Services	 53
A. <i>Overview</i>	53
B. <i>Water use in energy and electricity production</i>	57
C. <i>Technology options for improved water-energy-food security</i>	67
 IV. Water and Energy for Food Security	 73
A. <i>Overview</i>	73
B. <i>Production and use of fertilizers for agriculture</i>	77
C. <i>Technology options in the agricultural sector to increase water and energy security</i>	79
D. <i>Investing abroad for increased food security</i>	85
 V. Conclusions and Recommendations	 91
A. <i>Implications of the nexus for integrated natural resources management</i>	92
B. <i>Insights for informing the Sustainable Development Goals</i>	94
C. <i>Recommendations</i>	96
 Bibliography	 99
