

UNITED NATIONS ECONOMIC COMMISSION FOR EUROPE

ENVIRONMENTAL PERFORMANCE REVIEWS

GEORGIA

Third Review

UNITED NATIONS

New York and Geneva, 2016

CONTENTS

Foreword.....	iii
Preface	v
List of team members	vii
List of contributors	ix
Key abbreviations	xxiii
Signs and measures	xxiv

EXECUTIVE SUMMARY	xxvii
--------------------------------	--------------

Introduction: ENVIRONMENTAL CONDITIONS AND PRESSURES

I.1 Geography and climate.....	1
I.2 Demographic and socioeconomic context.....	1
I.3 Key environmental trends.....	3

PART I ENVIRONMENTAL GOVERNANCE AND FINANCING

Chapter 1: Legal, policy and institutional framework

1.1 Institutional framework	13
1.2 Policy framework	20
1.3 Legal framework	23
1.4 Regulatory instruments and procedures	25
1.5 Compliance assurance mechanisms.....	30
1.6 Environmental information and data reporting	33
1.7 Conclusions and recommendations	35

Chapter 2: Economic instruments and environmental expenditures for greening the economy

2.1 Economic instruments	39
2.2 Financial resources for environmental protection	53
2.3 Conclusions and recommendations	58

PART II MEDIA AND POLLUTION MANAGEMENT

Chapter 3: Air protection

3.1 Trends in emission levels	63
3.2 Pressures	64
3.3 Air quality.....	66
3.4 Air monitoring.....	67
3.5 Emission monitoring and reporting	68
3.6 Legal, policy and institutional framework.....	68
3.7 Regulatory, economic and information measures	70
3.8 Air-related global and regional agreements.....	71
3.9 Conclusions and recommendations	72

Chapter 4: Water management

4.1 Management of water use and pollution prevention	75
4.2 Water monitoring.....	79
4.3 River basin management	81

	<u>Page</u>
4.4 Developments in water infrastructure systems and their management	82
4.5 Legal, policy and institutional framework.....	83
4.6 Regulatory, economic, fiscal and information measures.....	86
4.7 Water-related global, regional and bilateral agreements	86
4.8 Conclusions and recommendations	87
 Chapter 5: Waste management	
5.1 Trends in waste management	89
5.2 Pressures from waste	94
5.3 Legal, policy and institutional framework.....	95
5.4 Regulatory, economic, fiscal and information instruments	99
5.5 Waste-related global and regional agreements	100
5.6 International projects	101
5.7 Conclusions and recommendations	102
 Chapter 6: Biodiversity and protected areas	
6.1 Trends in species and ecosystems	103
6.2 Trends in development and management of protected areas and ecological networks	106
6.3 Pressures on species and ecosystems.....	106
6.4 Biodiversity monitoring.....	109
6.5 Legal, policy and institutional framework.....	110
6.6 Most important projects.....	112
6.7 Communication, education and public awareness-raising.....	112
6.8 Biodiversity-related global, regional and bilateral agreements	113
6.9 Conclusions and recommendations	113
 PART III Interaction of environment with selected sectors/issues	
 Chapter 7: Energy and environment	
7.1 Trends in energy balance.....	117
7.2 Environmental pressures	121
7.3 Energy intensity and efficiency by end use	124
7.4 Alternative sources of energy	125
7.5 Legal, policy and institutional framework.....	126
7.6 Projects	129
7.7 Energy sector development scenarios.....	129
7.8 Regulatory, economic, fiscal and information measures	130
7.9 Energy-related global and regional agreements	131
7.10 Conclusions and recommendations	132
 Chapter 8: Industry and environment	
8.1 Trends in industry development	133
8.2 Environmental pressures and trends	133
8.3 Integration of environmental considerations in industry	139
8.4 Conclusions and recommendations	144
 Chapter 9: Agriculture and environment	
9.1 Conditions and activities in agriculture	147
9.2 Pressures from agriculture	150
9.3 Legal, policy and institutional framework.....	152
9.4 Agriculture-related global and regional agreements	156
9.5 Conclusions and recommendations	156

Chapter 10: Transport and environment

10.1 Overview of transport sector and transport infrastructure	159
10.2 Environmental pressures from different modes of transport and from transport infrastructure	164
10.3 Emission and fuel standards for vehicles	167
10.4 Assessment of performance towards greening the transport sector	168
10.5 Conclusions and recommendations	171

Chapter 11: Forestry and environment

11.1 Current situation	175
11.2 Role and functions of forests	179
11.3 Pressures from forestry	181
11.4 Forest monitoring	181
11.5 Assessment of environmental performance	181
11.6 Conclusions and recommendations	187

Chapter 12: Tourism and environment

12.1 Current situation	189
12.2 Development in tourism activities	192
12.3 Pressures from tourism and tourist infrastructure	195
12.4 Legal, policy and institutional framework	195
12.5 Projects	198
12.6 Conclusions and recommendations	199

Chapter 13: Health and environment

13.1 Status of human health	201
13.2 Health risks associated with environmental factors and environmental causes, of morbidity and mortality	203
13.3 Legal policy and institutional framework	211
13.4 Conclusions and recommendations	215

Chapter 14: Risk management of natural and technological/anthropogenic hazards

14.1 Current situation	219
14.2 Legal, policy and institutional framework	219
14.3 Related global and regional agreements	224
14.4 Conclusions and recommendations	226

ANNEXES

I Implementation of the recommendations in the second Environmental Performance Review	231
II Participation of Georgia in multilateral environmental agreements	251
III Key data and indicators available for the review	255
IV Millenium Development Goals indicators, 2008-2014	261
V List of major environment-related legislation	269
VI Results of the For Future Inland Transport Systems (ForFITS) tool	275
Sources	287
