3.6	Class and the division of labor: the Esping-Andersen scheme	87
4	The derivation of the IPICS class scheme.....	91
4.1	Horizontal differentiation according to the work logic.....	91
4.2	Vertical differentiation according to employment relations.....	97
4.3	Gender, race and class.....	103
4.4	Social mobility and IPICS	107
5	Horizontal and vertical stratification of occupational positions	119
5.1	Testing the validity of the IPICS classes.....	120
5.2	Horizontal differences between occupations	124
5.3	Vertical differences between occupations.....	131
6	Datasets, Operationalization and conceptual issues.....	145
6.1	Employed datasets for the analysis of social mobility	145
6.2	Occupational classifications and IPICS	150
6.3	Sample and cohort design	156
7	Empirical description of industrial and post-industrial classes	159
7.1	Socio-demographic composition.....	159
7.2	Class and educational assets	163
7.3	Class and economic assets	166
7.4	Class profiles	174
7.5	Class and structural change.....	178
8	Absolute Mobility in Germany over the 20th century	185
8.1	Changing distributions of education, origin and social class	187
8.2	Aggregated mobility patterns.....	193
8.3	Changing aggregated absolute mobility patterns	200

8.4	The evolution of segment-specific outflow mobility patterns.....	207
8.5	Summary.....	212
9	Absolute mobility in the U.S. over the 20th century.....	215
9.1	Changing distributions of education, origin and social class	218
9.2	Aggregated mobility patterns.....	225
9.3	Changing aggregated absolute mobility patterns	229
9.4	The evolution of segment-specific outflow mobility patterns.....	245
9.5	Summary.....	252
10	Relative mobility in Germany and the U.S.	255
10.1	A model of social fluidity for post-industrial societies	257
10.2	Country-specific adaptations: Germany.....	264
10.3	Country-specific adaptations: United States	265
11	Social fluidity in Germany	269
11.1	Barriers and bridges: Social fluidity in Germany	270
11.2	Comparing the IPICS and EGP classes directly: the German case ..	277
11.3	Changing social fluidity across cohorts	281
11.4	Summary.....	297
12	Social fluidity in the United States of America.....	299
12.1	Barriers and bridges: Social fluidity in the United States	301
12.2	Comparing the IPICS and EGP classes directly: the American case	309
12.3	Changing social fluidity across cohorts	311
12.4	Summary.....	328
13	Social mobility in two post-industrial societies.....	331
13.1	Comparing social fluidity levels between the U.S. and Germany....	342
13.2	Shortcomings and future work.....	346
14	References.....	349
15	Online appendix	379
15.1	The differential treatment of self-employed in the IPICS scheme...	379
15.2	Weighting of the American data	381
15.3	Class and family.....	390
15.4	Methodological strategy for the analysis of social fluidity	395
