Introduction xiii

1. **Building on an Innovation for Inclusive Development agenda** 1
 - An emerging research literature 1
 - Setting an IID research agenda 2
 - Extending research on academic interaction 3
 - Innovation, marginalisation and inclusive development 3
 - University–industry–community interaction 6
2. **A multiple case study methodology** 11
 - Identifying cases of interaction 12
 - Case study design and fieldwork 13
 - Interviews as the core methodology 14
 - The case study analysis 15
3. **The South African higher education context** 17
 - The contours of the higher education system 17
 - Mapping patterns of interaction 20
 - Contextualising the potential for innovation-oriented to inclusive development 23
4. **Upgrading the capabilities of women in an informal clothing enterprise: the interaction between a university of technology and an NGO-led social enterprise** 24
 - A women's sewing collective and social enterprise supported by structured interaction with a university of technology 24
 - Overview of the engagement: a university–community strategic partnership focused on innovation and skills development 25
 - The structure of interaction 28
 - Organisational arrangements and interface structures 32
 - Drivers of interaction 36
 - Innovation 36
 - Knowledge and skills 38
 - Community participation 39
 - Outcomes and benefits 39
 - An alternative case: *It's new because we are the ones now manufacturing it* 41
 - Conclusion 44

5. Protecting the livelihoods of a marginalised fishing community through interaction with a research university 46

Sustainable traditional artisanal fishing practices: a fragile livelihood supported by knowledge, research and social innovation 46

Overview of the interaction: a dynamic long-term partnership 48

The structure of interaction 53

Organisational arrangements and interface structures 57

Drivers of interaction 60

Innovation 62

Knowledge and skills 63

Community participation 64

Outcomes and benefits 65

Conclusion 66

6. Re-introducing indigenous cattle breeds to improve rural livelihoods at a rural university 68

Pastoral livelihoods in rural South Africa: a critical resource for marginalised communities 68

Overview of the interaction: a long-term partnership to reclaim indigenous cattle breeds for rural farmers 69

The structure of interaction 70

Organisational arrangements and interface structures 73

Drivers of interaction 76

Innovation 77

Knowledge and skills 79

Community participation 81

Outcomes and benefits 83

A contrast case: misalignment with markets in a rural innovation hub 84

Conclusion 87

7. Innovative solutions for sustainable urban settlements at a comprehensive university 89

Action research into sustainable urban settlements: a participative response to a national priority and the needs of a local community 89

Overview of the interaction 90

The structure of interaction 93

Interface structures 95

Drivers of interaction 98

Innovation 98

Knowledge and skills 99

Community participation 100

Outcomes and benefits 101

Conclusion 102

8. Enablers and constraints on innovation to enhance livelihoods in informal settings	104
Two broad patterns of interaction	104
Innovation by and for marginalised groups in informal settings	105
Enablers and constraints	107
9. Conclusion: reflections on universities and innovation for inclusive development	112
Critical questions about universities and innovation for inclusive development	112
How do we encourage universities and their academics to extend their scholarship to the benefit of marginalised communities?	115
Researching universities in innovation for inclusive development	116
