Dynamic and Seamless Integration of Production, Logistics and Traffic

Fundamentals of Interdisciplinary Decision
Support

Contents

Interdisciplinary Research in Production, Logistics and Traffic: Introduction to Dynamo PLV and Overview of the Book	1
Eberhard Abele, Manfred Boltze, and Hans-Christian Pfohl	
 Part I Fundamentals of Interdisciplinary Research in Production, Logistics and Traffic	
Interdisciplinary Decisions in Production, Logistics, and Traffic and Transport: Measures for Overcoming Barriers in Interdisciplinary Decision-Making	13
Hans-Christian Pfohl, Ulrich Berbner, and Christian Zuber	
The Interdisciplinary Decision Map: A Reference Model for Production, Logistics and Traffic	31
Manfred Boltze, Frederik Rühl, Ulrich Berbner, and Hanno Friedrich	
 Part II Interdisciplinarity from a Domain Specific Perspective of Production, Logistics and Traffic	
Flexible Design of Lean Production Systems in Response to Fluctuations Due to Logistics and Traffic	51
Stefan Seifermann, Jörg Böllhoff, Siri Adolph, Eberhard Abele, and Joachim Metternich	
Simulation-Based Assessment of Lean Production Methods: Approaches to Increase Volume and Variant Flexibility	83
Markus P. Roessler, Felix Wiegel, Eberhard Abele, and Joachim Metternich	
Revenue Sharing Between Production, Logistics and Traffic: An Experimental Analysis of the Actors in Distribution Logistics	105
Ralf Elbert, Özhan Özucu, and Cora Bogusch	

**Supply Chain Risk Management in the Automotive Industry:
Cross-Functional and Multi-tier Perspectives 119**
Liyuan Wang, Kai Foerstl, and Friso Zimmermann

**Temporal Shifts in Freight Traffic: Estimating the Potential
to Improve Traffic Quality on German Highways with
Temporal Shifts of Heavy Traffic 145**
Karin Menges and Manfred Boltze

**Freight Transport Demand Management: Influencing the Freight
Transport Demand Within Traffic Management 163**
Frederik Rühl and Manfred Boltze

**Implications for Freight Transport Demand Modelling from
Interdisciplinary Research: Developing a Concept for Modelling
Freight Transport Within Supply Networks of the Automotive
Industry 185**
Ole Ottemöller and Hanno Friedrich
