Persistent Stochastic Shocks in a New Keynesian Model with Uncertainty

 **Springer** Gabler

Contents

Lists of Figures and Tables	IX
Lists of Symbols and Acronyms	XI
1 Introduction	1
2 New Keynesian Model	3
2.1 The New Neoclassical Synthesis	3
2.2 New Keynesian Phillips Curve	5
2.3 Forward-Looking IS Curve	13
2.4 Targeting Rule under Discretion	17
3 Persistent Shocks	20
3.1 AR(1) Process	20
3.2 Uniqueness of an Equilibrium	21
3.3 Equilibrium Condition	23
3.4 Comparative Static Analysis	26
3.5 Parameter Discussion	27
3.6 Numerical Simulation	29
4 Model with Uncertainty	32
4.1 Quadratic Approximation	32
4.2 Interest Rate Rule with the Quadratic IS Curve	35
4.3 Equilibrium Condition	36
4.4 Further Calculations	39
4.5 Numerical Simulation	40
4.6 Model Comparison	43
5 Conclusion	49
References	51
Appendix	57
