Preface xxii

Part 1: Introduction to Financial Management

CHAPTER 1
Getting Started—Principles of Finance 2
• Principle 1: Money Has a Time Value 3
• Principle 2: There Is a Risk-Return Tradeoff 3
• Principle 3: Cash Flows Are the Source of Value 3
• Principle 4: Market Prices Reflect Information 3
• Principle 5: Individuals Respond to Incentives 3

1.1 Finance: An Overview 4
What Is Finance? 4
Why Study Finance? 4

1.2 Three Types of Business Organizations 5
Sole Proprietorship 5
Partnership 6
Corporation 7
How Does Finance Fit into the Firm’s Organizational Structure? 8

1.3 The Goal of the Financial Manager 9
Maximizing Shareholder Wealth 9
Ethical Considerations in Corporate Finance 10
Regulation Aimed at Making the Goal of the Firm Work: The Sarbanes-Oxley Act 11

1.4 The Five Basic Principles of Finance 11
Principle 1: Money Has a Time Value 11
Principle 2: There Is a Risk-Return Tradeoff 12
Principle 3: Cash Flows Are the Source of Value 12
Principle 4: Market Prices Reflect Information 13
Principle 5: Individuals Respond to Incentives 13

Chapter Summaries 15
Study Questions 17

CHAPTER 2
Firms and the Financial Markets 18
• Principle 2: There Is a Risk-Return Tradeoff 19
• Principle 4: Market Prices Reflect Information 19
• Principle 5: Individuals Respond to Incentives 19

2.1 The Basic Structure of the U.S. Financial Markets 20
2.2 The Financial Marketplace: Financial Institutions 20
Commercial Banks: Everyone’s Financial Marketplace 21
Nonbank Financial Intermediaries 22
FINANCE FOR LIFE: Controlling Costs in Mutual Funds 24

2.3 The Financial Marketplace: Securities Markets 25
How Securities Markets Bring Corporations and Investors Together 26
Types of Securities 27
FINANCE IN A FLAT WORLD: Where’s the Money Around the World 32

Chapter Summaries 34
Study Questions 36
CHAPTER 3
Understanding Financial Statements 38

Principle 1: Money Has a Time Value 39
Principle 3: Cash Flows Are the Source of Value 39
Principle 4: Market Prices Reflect Information 39
Principle 5: Individuals Respond to Incentives 39

3.1 An Overview of the Firm's Financial Statements 40
Basic Financial Statements 40
Why Study Financial Statements? 41
What Are the Accounting Principles Used to Prepare Financial Statements? 41

3.2 The Income Statement 42
Income Statement of H. J. Boswell, Inc. 42
Connecting the Income Statement and Balance Sheet 44
Interpreting Firm Profitability Using the Income Statement 44
GAAP and Earnings Management 45

3.3 Corporate Taxes 47
Computing Taxable Income 47
Federal Income Tax Rates for Corporate Income 47
Marginal and Average Tax Rates 48
Dividend Exclusion for Corporate Stockholders 48

3.4 The Balance Sheet 49
The Balance Sheet of H. J. Boswell, Inc. 49
Firm Liquidity and Net Working Capital 52
Debt and Equity Financing 53
Book Values, Historical Costs, and Market Values 55
FINANCE FOR LIFE: Your Personal Balance Sheet and Income Statement 56

3.5 The Cash Flow Statement 58
Sources and Uses of Cash 58
H. J. Boswell's Cash Flow Statement 60
FINANCE IN A FLAT WORLD: GAAP vs. IFRS 61

Chapter Summaries 67
Study Questions 70
Study Problems 71
Mini-Case 75

CHAPTER 4
Financial Analysis—Sizing Up Firm Performance 78

Principle 3: Cash Flows Are the Source of Value 79
Principle 4: Market Prices Reflect Information 79
Principle 5: Individuals Respond to Incentives 79

4.1 Why Do We Analyze Financial Statements? 80

4.2 Common-Size Statements: Standardizing Financial Information 81
The Common-Size income Statement: H. J. Boswell, Inc. 81
The Common-Size Balance Sheet: H. J. Boswell, Inc. 82

4.3 Using Financial Ratios 83
Liquidity Ratios 83
Capital Structure Ratios 89
Asset Management Efficiency Ratios 90
Profitability Ratios 94
Market Value Ratios 101
FINANCE FOR LIFE: Your Cash Budget and Personal Savings Ratio 102
Summing Up the Financial Analysis of H. J. Boswell, Inc. 105
FINANCE IN A FLAT WORLD: Ratios and International Accounting Standards 105
CONTENTS | xi

4.4 Selecting a Performance Benchmark 107
   Trend Analysis 107
   Peer-Firm Comparisons 108

4.5 Limitations of Ratio Analysis 109

Chapter Summaries 111
Study Questions 114
Study Problems 114
Mini-Case 127

Part 2: Valuation of Financial Assets

CHAPTER 5
The Time Value of Money—The Basics 128
   Principle 1: Money Has a Time Value 129

   5.1 Using Timelines to Visualize Cash Flows 130
   5.2 Compounding and Future Value 132
      Compound Interest and Time 133
      Compound Interest and the Interest Rate 133
      Techniques for Moving Money Through Time 133
      Applying Compounding to Things Other Than Money 135
      Compound Interest with Shorter Compounding Periods 135

      FINANCE FOR LIFE: Saving for Your First House 139

   5.3 Discounting and Present Value 139
      The Mechanics of Discounting Future Cash Flows 140
      Two Additional Types of Discounting Problems 142
      The Rule of 72 143

   5.4 Making Interest Rates Comparable 145
      Calculating the Interest Rate and Converting It to an EAR 147
      To the Extreme: Continuous Compounding 148

      FINANCE IN A FLAT WORLD: Financial Access at Birth 149

Chapter Summaries 150
Study Questions 152
Study Problems 153
Mini-Case 157

CHAPTER 6
The Time Value of Money—Annuities and Other Topics 158
   Principle 1: Money Has a Time Value 159
   Principle 3: Cash Flows Are the Source of Value 159

   6.1 Annuities 160
      Ordinary Annuities 160
      Amortized Loans 168
      Annuities Due 169

      FINANCE FOR LIFE: Saving for Retirement 172

   6.2 Perpetuities 173
      Calculating the Present Value of a Level Perpetuity 173
      Calculating the Present Value of a Growing Perpetuity 173

   6.3 Complex Cash Flow Streams 176

Chapter Summaries 180
Study Questions 181
Study Problems 182
Mini-Case 191
CHAPTER 7
An Introduction to Risk and Return—History of Financial Market Returns 192

Principle 2: There Is a Risk-Return Tradeoff 193
Principle 4: Market Prices Reflect Information 193

7.1 Realized and Expected Rates of Return and Risk 194
Calculating the Realized Return from an Investment 194
Calculating the Expected Return from an Investment 195
Measuring Risk 196

7.2 A Brief History of Financial Market Returns 202
U.S. Financial Markets: Domestic Investment Returns 202
Lessons Learned 204
U.S. Stocks Versus Other Categories of Investments 204
Global Financial Markets: International Investing 204
FINANCE FOR LIFE: Determining Your Tolerance for Risk 206

7.3 Geometric Versus Arithmetic Average Rates of Return 207
Computing the Geometric or Compound Average Rate of Return 207
Choosing the Right “Average” 208

7.4 What Determines Stock Prices? 211
The Efficient Markets Hypothesis 211
Do We Expect Financial Markets to Be Perfectly Efficient? 212
Market Efficiency: What Does the Evidence Show? 213

Chapter Summaries 215
Study Questions 218
Study Problems 218
Mini-Case 221

CHAPTER 8
Risk and Return—Capital Market Theory 222

Principle 2: There Is a Risk-Return Tradeoff 223
Principle 4: Market Prices Reflect Information 223

8.1 Portfolio Returns and Portfolio Risk 224
Calculating the Expected Return of a Portfolio 224
Evaluating Portfolio Risk 226
Calculating the Standard Deviation of a Portfolio’s Returns 228
FINANCE IN A FLAT WORLD: International Diversification 231

8.2 Systematic Risk and the Market Portfolio 233
Diversification and Unsystematic Risk 234
Diversification and Systematic Risk 235
Systematic Risk and Beta 235
Calculating the Portfolio Beta 237

8.3 The Security Market Line and the CAPM 238
Using the CAPM to Estimate Expected Rates of Return 240

Chapter Summaries 243
Study Questions 245
Study Problems 246
Mini-Case 253

CHAPTER 9
Debt Valuation and Interest Rates 254

Principle 1: Money Has a Time Value 255
Principle 2: There Is a Risk-Return Tradeoff 255
Principle 3: Cash Flows Are the Source of Value 255
9.1 Overview of Corporate Debt 256
Borrowing Money in the Private Financial Market 256
Borrowing Money in the Public Financial Market 258
Basic Bond Features 261
FINANCE FOR LIFE: Adjustable-Rate Mortgages 263

9.2 Valuing Corporate Debt 265
Valuing Bonds by Discounting Future Cash Flows 265
Step 1: Determine Bondholder Cash Flows 266
Step 2: Estimate the Appropriate Discount Rate 266
Step 3: Calculate the Present Value Using the Discounted Cash Flow 269

9.3 Bond Valuation: Four Key Relationships 273
Relationship 1 273
Relationship 2 275
Relationship 3 275
Relationship 4 276

9.4 Types of Bonds 278
Secured Versus Unsecured 278
Priority of Claims 278
Initial Offering Market 278
Abnormal Risk 278
Coupon Level 278
Amortizing or Non-amortizing 278
Convertibility 279
FINANCE IN A FLAT WORLD: International Bonds 280

9.5 Determinants of Interest Rates 280
Inflation and Real Versus Nominal Interest Rates 280
Interest Rate Determinants—Breaking It Down 282
The Maturity-Risk Premium and the Term Structure of Interest Rates 285

Chapter Summaries 290
Study Questions 294
Study Problems 295
Mini-Case 299

CHAPTER 10
Stock Valuation 300

Principle 1: Money Has a Time Value 301
Principle 2: There Is a Risk-Reward Tradeoff 301
Principle 3: Cash Flows Are the Source of Value 301
Principle 4: Market Prices Reflect Information 301
Principle 5: Individuals Respond to Incentives 301

10.1 Common Stock 302
Characteristics of Common Stock 302
FINANCE FOR LIFE: Herd Mentality 303
Agency Costs and Common Stock 304
Valuing Common Stock Using the Discounted Dividend Model 304

10.2 The Comparables Approach to Valuing Common Stock 311
Defining the P/E Ratio Valuation Model 311
What Determines the P/E Ratio for a Stock? 311
An Aside on Managing for Shareholder Value 315
A Word of Caution About P/E Ratios 315

10.3 Preferred Stock 315
Features of Preferred Stock 315
Valuing Preferred Stock 316
A Quick Review: Valuing Bonds, Preferred Stock, and Common Stock 318
Part 3: Capital Budgeting

CHAPTER 11
Investment Decision Criteria 328

Principle 1: Money Has a Time Value 329
Principle 2: There Is a Risk-Return Tradeoff 329
Principle 3: Cash Flows Are the Source of Value 329
Principle 5: Individuals Respond to Incentives 329

11.1 An Overview of Capital Budgeting 330
The Typical Capital-Budgeting Process 331
What Are the Sources of Good Investment Projects? 331
Types of Capital Investment Projects 331

11.2 Net Present Value 332
Why Is the NPV the Right Criterion? 333
Calculating an Investment's NPV 333
Independent Versus Mutually Exclusive Investment Projects 334

11.3 Other Investment Criteria 340
Profitability Index 340
Internal Rate of Return 342
Modified Internal Rate of Return 348
FINANCE FOR LIFE: Higher Education as an Investment in Yourself 352
Payback Period 352
Discounted Payback Period 353
Summing Up the Alternative Decision Rules 355

11.4 A Glance at Actual Capital-Budgeting Practices 355

Chapter Summaries 358
Study Questions 361
Study Problems 362
Mini-Cases 369

CHAPTER 12
Analyzing Project Cash Flows 372

Principle 3: Cash Flows Are the Source of Value 373
Principle 5: Individuals Respond to Incentives 373

12.1 Project Cash Flows 374
Incremental Cash Flows Are What Matters 375
Guidelines for Forecasting Incremental Cash Flows 375

12.2 Forecasting Project Cash Flows 377
Dealing with Depreciation Expense, Taxes, and Cash Flow 377
Four-Step Procedure for Calculating Project Cash Flows 378
Computing Project NPV 382

12.3 Inflation and Capital Budgeting 384
Estimating Nominal Cash Flows 384

12.4 Replacement Project Cash Flows 385
Category 1: Initial Outlay, $CF_0$ 385
Category 2: Annual Cash Flows 385
CHAPTER 13
Risk Analysis and Project Evaluation 408

13.1 The Importance of Risk Analysis 410
13.2 Tools for Analyzing the Risk of Project Cash Flows 411
Key Concepts: Expected Values and Value Drivers 411
Sensitivity Analysis 413
Scenario Analysis 417
Simulation Analysis 420

13.3 Break-Even Analysis 422
Accounting Break-Even Analysis 423
Cash Break-Even Analysis 427
NPV Break-Even Analysis 427
Operating Leverage and the Volatility of Project Cash Flows 430

13.4 Real Options in Capital Budgeting 432
The Option to Delay the Launch of a Project 432
The Option to Expand a Project 433
The Option to Reduce the Scale and Scope of a Project 433

CHAPTER 14
The Cost of Capital 444

14.1 The Cost of Capital: An Overview 446
Investor's Required Return and the Firm's Cost of Capital 447
WACC Equation 447
Three-Step Procedure for Estimating the Firm's WACC 448

14.2 Determining the Firm's Capital Structure Weights 449
14.3 Estimating the Cost of Individual Sources of Capital 453
The Cost of Debt 453
The Cost of Preferred Equity 454
The Cost of Common Equity 456
14.4 Summing Up: Calculating the Firm’s WACC 463
Use Market-Based Weights 463
Use Market-Based Costs of Capital 463
Use Forward-Looking Weights and Opportunity Costs 463
Weighted Average Cost of Capital in Practice 463

14.5 Estimating Project Costs of Capital 465
The Rationale for Using Multiple Discount Rates 465
Why Don’t Firms Typically Use Project Costs of Capital? 465
Estimating Divisional WACCs 466
Divisional WACC: Estimation Issues and Limitations 467
FINANCE IN A FLAT WORLD: Why Do Interest Rates Differ Among Countries? 468

14.6 Flotation Costs and Project NPV 469
WACC, Flotation Costs, and the NPV 469

Chapter Summaries 472
Study Questions 475
Study Problems 476
Mini-Case 481

Part 4: Capital Structure and Dividend Policy

CHAPTER 15
Capital Structure Policy 482

P Principle 2: There Is a Risk-Return Tradeoff 483
P Principle 3: Cash Flows Are the Source of Value 483
P Principle 5: Individuals Respond to Incentives 483

15.1 A Glance at Capital Structure Choices in Practice 484
Defining a Firm’s Capital Structure 484
Financial Leverage 487
How Do Firms in Different Industries Finance Their Assets? 487

15.2 Capital Structure Theory 488
A First Look at the Modigliani and Miller Capital Structure Theorem 488
Yogi Berra and the M&M Capital Structure Theory 490
Capital Structure, the Cost of Equity, and the Weighted Average Cost of Capital 490
Why Capital Structure Matters in Reality 492
Making Financing Choices When Managers Are Better Informed than Shareholders 497
Managerial Implications 498

15.3 Why Do Capital Structures Differ Across Industries? 499

15.4 Making Financing Decisions 500
Benchmarking the Firm’s Capital Structure 500
Evaluating the Effect of Financial Leverage on Firm Earnings per Share 501
Using the EBIT-EPS Chart to Analyze the Effect of Capital Structure on EPS 506
Can the Firm Afford More Debt? 508
Survey Evidence: Factors That Influence CFO Debt Policy 509
FINANCE IN A FLAT WORLD: Capital Structures Around the World 510
Lease Versus Buy 511
FINANCE FOR LIFE: Leasing or Buying Your Next Car 513

Chapter Summaries 514
Study Questions 516
Study Problems 518
Mini-Case 522
Appendix: Demonstrating the Modigliani and Miller Theorem 523
CHAPTER 16

Dividend and Share Repurchase Policy 526

- Principle 1: Money Has a Time Value 527
- Principle 3: Cash Flows Are the Source of Value 527
- Principle 4: Market Prices Reflect Information 527

16.1 How Do Firms Distribute Cash to Their Shareholders? 528
  - Cash Dividends 529
  - Stock Repurchases 530
  - How Do Firms Repurchase Their Shares? 530
  - Personal Tax Considerations: Dividend Versus Capital Gains Income 531
  - Noncash Distributions: Stock Dividends and Stock Splits 531

16.2 Does Dividend Policy Matter? 532
  - The Irrelevance of the Distribution Choice 532
  - Why Dividend Policy Is Important 538
  - FINANCE FOR LIFE: The Importance of Dividends 541

16.3 Cash Distribution Policies in Practice 541
  - Stable Dividend Payout Policy 541
  - Residual Dividend Payout Policy 545
  - Other Factors Playing a Role in How Much to Distribute 545

Chapter Summaries 546
Study Questions 547
Study Problems 549
Mini-Case 551

Part 5: Liquidity Management and Special Topics in Finance

CHAPTER 17

Financial Forecasting and Planning 552

- Principle 2: There Is a Risk-Return Tradeoff 553

17.1 An Overview of Financial Planning 554

17.2 Developing a Long-Term Financial Plan 555
  - Financial Forecasting Example: Ziegen, Inc. 556
  - FINANCE FOR LIFE: Your Personal Budget 561

17.3 Developing a Short-Term Financial Plan 564
  - Cash Budget Example: Melco Furniture, Inc. 564
  - Uses of the Cash Budget 565

Chapter Summaries 567
Study Questions 568
Study Problems 569
Mini-Case 575

CHAPTER 18

Working-Capital Management 576

- Principle 2: There Is a Risk-Return Tradeoff 577

18.1 Working-Capital Management and the Risk-Return Tradeoff 578
  - Measuring Firm Liquidity 578
  - Managing Firm Liquidity 579
  - Risk-Return Tradeoff 579

18.2 Working-Capital Policy 579
  - The Principle of Self-Liquidating Debt 579
  - A Graphic Illustration of the Principle of Self-Liquidating Debt 582
18.3 Operating and Cash Conversion Cycles 582
   Measuring Working-Capital Efficiency 582
   Calculating the Operating and Cash Conversion Cycles 584

18.4 Managing Current Liabilities 587
   Calculating the Cost of Short-Term Financing 587
   Evaluating the Cost of Trade Credit 588
   Evaluating the Cost of Bank Loans 589

18.5 Managing the Firm’s Investment in Current Assets 591
   Managing Cash and Marketable Securities 591
   Managing Accounts Receivable 593
   FINANCE FOR LIFE: Credit Scoring 595
   Managing Inventories 597

Chapter Summaries 598
Study Questions 600
Study Problems 601
Mini-Case 605

CHAPTER 19
International Business Finance 606
   Principle 2: There Is a Risk-Return Tradeoff 607
   Principle 3: Cash Flows Are the Source of Value 607

19.1 Foreign Exchange Markets and Currency Exchange Rates 608
   What a Change in the Exchange Rate Means for Business 608
   Foreign Exchange Rates 610
   Types of Foreign Exchange Transactions 613

19.2 Interest Rate and Purchasing-Power Parity 616
   Interest Rate Parity 616
   Purchasing-Power Parity and the Law of One Price 616
   The International Fisher Effect 617

19.3 Capital Budgeting for Direct Foreign Investment 619
   FINANCE FOR LIFE: International Investing 620
   Foreign Investment Risks 623

Chapter Summaries 625
Study Questions 627
Study Problems 628
Mini-Case 631

CHAPTER 20
Corporate Risk Management 632
   Principle 1: Money Has a Time Value 633
   Principle 2: There Is a Risk-Return Tradeoff 633

20.1 Five-Step Corporate Risk Management Process 634
   Step 1: Identify and Understand the Firm’s Major Risks 634
   Step 2: Decide Which Types of Risks to Keep and Which to Transfer 635
   Step 3: Decide How Much Risk to Assume 635
   Step 4: Incorporate Risk into All the Firm’s Decisions and Processes 635
   Step 5: Monitor and Manage the Firm’s Risk Exposure 636

20.2 Managing Risk with Insurance Contracts 637
   Types of Insurance Contracts 637
   Why Purchase Insurance? 637
   FINANCE FOR LIFE: Do You Need Life Insurance? 638

20.3 Managing Risk by Hedging with Forward Contracts 638
   Hedging Commodity Price Risk Using Forward Contracts 639
   Hedging Currency Risk Using Forward Contracts 639
