Table of Contents

The Late 1980s: Instability of Reserve Demand and Unintended Monetary Expansion 115
Transition to Medium-Term Targets for Money 116
Return to Normality and Transition to a New Monetary Policy Framework 119
A Changed Monetary Environment: Formation of the Eurozone 122
Interdependence of Monetary, Fiscal, and Political Stability 124
Monetary Policy in the Financial and Euro Crises 126

PART III KEY QUESTIONS AND GENERAL INSIGHTS FROM SWISS MONETARY EXPERIENCE 131

8 The Swiss Experience with Currency and Note-Issue Competition 1825–1905 133
  Three Phases of Currency and Note-Issue Competition 133
  Note-Issue Competition without a Common, Dominant Currency: 1825–1850 134
  Unregulated Note-Issue Competition with a Common, Dominant Currency: 1850–1881 135
  Note-Issue Competition with a Strongly Regulated Note-Issue Business: 1881–1905 143
  Was the Banknote a Homogeneous Product? The Role of Regulation of the Note-Issue Business 145
  Desire for Efficiency and Stability as Main Motivation for Centralization 146
  The Role of Central Banks in the Metallic Currency Systems of the Nineteenth Century 148
  The Demand for Coins, Banknotes and Sight Deposits: 1851–1906 150
Conclusions 152

9 Swiss Money Demand and Supply 1851–2010 153
  Swiss Money Demand 1851–2010 153
  Money Demand and Macroeconomic Adjustment in Switzerland 1851–2010 161
  M1 and the Monetary Base in Switzerland 1907–2010 163
Conclusions 167
Table of Contents

10 The "Swiss Interest Rate Island" 1837–1970 171
Discount Rate Data for Switzerland, France, Germany, the Netherlands, and Great Britain 172
Econometric Estimates of Multiple Breaks in International Interest Rate Differentials of the Swiss Franc 176
Conclusions 178

11 The Swiss Franc at the Foreign Exchange Market 1850–2010 180
Deviations from Metallic Parities of the Swiss Franc before World War I 181
Purchasing Power Parity and Trends in the Real Exchange Rate for the Swiss Franc 1914–2010 189
Purchasing Power Parity and Trends in the Real Swiss Franc/Euro Exchange Rate 1978–2014 196
Conclusions 199

12 Monetary and Macroeconomic Effects of Swiss Banking and Finance 1890–2010 200
The Contribution of the Financial Sector to GDP, Banks' Balance Sheets, and Bank Leverage: Data and Description 202
The Contribution of the Financial Sector to GDP, Banks' Balance Sheets, and Bank Leverage: Some Econometric Results 206
Swiss Trade and Current Account Balance 1890–2010 210
Switzerland's Foreign Assets and Liabilities 1999–2014 212
Conclusions 215

Conclusion 217
The Vital Importance of Political and Financial Stability for the Rise of a Currency 217
Monetary, Financial, and Economic Stability are Interdependent 219
Metal-Based versus Paper-Based Currencies 219
Competition and Monopoly in Money and Currencies 221
The Importance of Monetary Stability as the Main Objective of Central Bank Policy in a Paper Money System 222
Fixed versus Flexible Exchange Rates 224
Small Country, Independent Currency: The Value of Monetary Sovereignty 224
